

# What are trees? How does other life depend on them?

---

---

---

---

---

Ayesha

Trees are living things, but they are not plants.

Lots of living things rely on trees for food and a home.

Julian

Who do you agree or disagree with?

Do you have any other ideas?

Ben

I don't think trees have flowers.

It doesn't matter if trees are cut down, we can just plant more.

Yvonne
